Document Purpose:

To describe CRH's policies for the provision of financial assistance to qualifying persons as outlined.

POLICY:

Chatuge Regional Hospital, Inc. (CRH) (further known as "facility") is committed to providing financial assistance to persons who have health-care needs and are uninsured or under-insured, ineligible for a government program, and otherwise unable to pay for medically necessary care based on their individual financial situation. Emergency care will be provided to all patients regardless of their or their family's ability to pay. Financial Assistance is not considered to be a substitute for personal responsibility, and patients are expected to cooperate with CRH, procedures for obtaining financial assistance, and to contribute to the cost of their care based on their individual ability to pay.

Accordingly, this written policy:

- Includes eligibility criteria for financial assistance-free and discounted (partial charity) care;
- Describes the basis for calculating amounts charged to patients for financial assistance under this policy;
- Limits the amounts that the hospital will charge for emergency or other medically necessary care provided to individuals eligible for financial assistance to no more than the amount generally billed to commercially insured or Medicare patients for healthcare;
- Describes the method by which patients may apply for financial assistance under this policy;
- Describes actions that may be taken in the event of nonpayment, should it be required;
- Describes how the hospital will widely publicize the policy within the community served by the hospital;
- Identifies providers that may be encountered in receiving emergency or other medically necessary care, other than the hospital facility, covered under this policy and providers that are not covered under this policy.

The AGB percentages calculated will be applied on May 1st each year and remain in effect until April 30th of the following year. ELIGIBILITY FOR FINANCIAL ASSISTANCE CONSIDERATION

Free care and discounted Financial Assistance applies only to Eligible Services as defined in this Policy. A patient that qualifies for financial assistance under this policy is eligible for discounts to co-payments, coinsurance and deductibles. Financial assistance discounts do not apply to any amounts received or receivable from an insurance company for Eligible Services. The maximum amount a patient will pay is the AGB as defined in this Policy.

Qualification for Financial Assistance based on income will be determined using the following methods:

1. Presumptive Eligibility – Prior to collection activity (ECA), all self-pay patient accounts will be reviewed using predictive analytics to determine if the patient/guarantor qualifies for financial assistance. If there is adequate information provided by the patient or through other sources, the

patient may be deemed presumptive charity without a formal application. The following types of accounts may be considered eligible for financial assistance without documentation under the presumptive charity program (1) Referrals from approved community agencies, (2) No estate (deceased), (3) Eligible for Medicaid in states other than Georgia, (4) Eligible for State/Federal Programs where program funding has been exhausted, (5) Low income or subsidized housing, (6) Participation in the Women, Infants, and Children's programs (WIC), (7) State funded housing programs, (8) Unemployed persons with no Third party insurance coverage; or

2. Completion of the facilities Financial Assistance Application as described below; or

3. Approved for financial assistance using method number 2 as described above within 90 days prior to the date of Eligible Services being rendered.

If a patient/guarantor qualifies for Discounted Financial Assistance or does not qualify for financial assistance using the Presumptive Eligibility method, the patient/guarantor retains the ability to apply for financial assistance by completing the facility Financial Assistance Application.

AMOUNTS CHARGED OR BILLED TO FAP-ELIGIBLE PATIENTS

Once a patient has been determined by the facility to be eligible for financial assistance, that patient shall not receive any future bills based on undiscounted gross charges, CRH uses the Federal Poverty Guidelines (FPG) in effect at the time an application is completed and submitted to determine eligibility for financial assistance. In no event will the FAP approved individual be billed more than the calculated AGB for any emergency or medically necessary care. Criteria are set as follows:

Income

- The following values shall be used to determine monthly income for the patient or guarantor seeking qualification for financial assistance: (1) Wages / Tips, (2) Supplemental Security Income (SSI), (3) Unemployment benefits, (4) Veterans Benefits, (5) Pensions / Retirement Benefits, (6) Child Support, (7) Interest /Dividends on investments, (8) Credit Card open to purchase.

General Statements

- Household combined gross incomes that are at or below 125% of the FPG are eligible to receive free care. This is classified as indigent care.
- Household combined gross incomes that exceed 125% of the FPG, but are at or below 400% of the FPG qualify for a discounted payment based on a sliding scale (see chart below). This is classified as charity care. The patient may be approved for a payment plan.
- Household combined gross incomes that exceed 400% of the FPG, where the patient is medically indigent or has unusual financial circumstances, such as catastrophic illness or accident, are evaluated based on their financial situation. This is classified as medically indigent or charity hardship care. The patient may be approved for a payment plan. Some examples include: (1) The size of the patient's medical bills based on a catastrophic illness or otherwise have resulted in patient liabilities for which payment is impossible based on current financial status of a household; or (2) The patient's subsistence is threatened resulting in an ability to meet patient liabilities.
- If the criteria is met, all discounts will be applied to the AGB for approved patients based on household income using the following schedule:

Household Income	Maximum Amount Individual is Responsible for Paying
Less than or equal to 125% of Federal Poverty Guidelines	0% of AGB
In excess of 125% but less than or equal to 150% of Federal Poverty Guidelines	10% of AGB
In excess of 150% but less than or equal to 175% of Federal Poverty Guidelines	15% of AGB
In excess of 175% but less than or equal to 200% of Federal Poverty Guidelines	20% of AGB
In excess of 200% but less than or equal to 225% of Federal Poverty Guidelines	25% of AGB
In excess of 225% but less than or equal to 275% of Federal Poverty Guidelines	40% of AGB
In excess of 275% but less than or equal to 300% of Federal Poverty Guidelines	50% of AGB
In excess of 300% but less than or equal to 325% of Federal Poverty Guidelines	60% of AGB
In excess of 325% but less than or equal to 350% of Federal Poverty Guidelines	70% of AGB
In excess of 350% but less than or equal to 375% of Federal Poverty Guidelines	80% of AGB
In excess of 375% but less than or equal to 400% of Federal Poverty Guidelines	90% of AGB

Patients approved for financial assistance will not be billed gross charges. As discussed above, the AGB percentage (and inverse discount) as determined annually based on the actual **Medicare claims allowed as determined under the look-back method.** Current discounts applied to gross charges to calculate the AGB are as follows:

Inpatient 28%
Outpatient 72%

Example calculation (1):

If a patient's gross charges for outpatient services are $1,000.00, the charge will be discounted to the Medicare reimbursement ($1,000.00*72%=$720.00 AGB write-off) ($1,000.00-$720.00=$220.00 patient liability).
If a patient qualified for 100% Financial Assistance, the following adjustment would be made; $720.00 would be written-off to AGB discount and $280.00 would be written-off to Indigent Care

Example calculation (2):

If a patient's gross charges for outpatient services are $1,000.00 and the patient qualified for 25% Charity Care the following adjustment would be made ($1,000.00*72%=$720.00 AGB write-off), ($280.00*25%=$210 charity write off, $70 patient liability).

In Summary:

I. $720.00 AGB write-off
   $280.00 Indigent write-off
II. $720.00 AGB write-off
   $210.00 Charity write-off
   $70 Patient Liability
